Emax-Air Circuit Breakers

E2 2000A Fixed and Drawout

AC Circuit Breakers and Switches Fixed and Drawout 3 and 4 Pole Field Interchangeable Modular Trip Units Extremely Simple Installation Standardized Accessories Across the Entire Range Higher Performances in Less Space Multiple Communication Options

Dimensions	3P Fixed	16.46H x 11.65W x 11.89D
	3P Drawout	18.15H x 12.76W x 15.61D

Compliance with Global Standards

IEC 60947, EN 60947, CEI EN 60947, IEC 6100
CCC
Marine and others
Also available as:

UL 1066

ANSI C37, C37.13, C37.16, C37.17, C37.50

The ABB Quality System complies with the international ISO 9001 - 2000 Standard (model for quality assurance in design, development, construction, and installation and service) and with the equivalent European EN ISO 9001 and Italian UNI EN ISO 9001 Standards

Connections

Rear connections-Horizontal (standard on fixed breaker) or Vertical

Trip Unit

The latest generation electronics from ABB have made it possible to design the new, revolutionary PR121, PR122 and

Auxiliary Devices for Indication and Control

Control

- Shunt trip/closing coil (YO/YC) and second shunt trip (YO2)
- Undervoltage release (YU)
- Time-delay device for undervoltage release (D)
- External current sensors for neutral conductor outside circuit breaker (neutral CTS)
- Homopolar toroid for the main power supply
 grounding conductor (star center of the transformer)
- Mechanical operation counter

Indication

- Gear motor for the automatic charging of the closing springs (M)
- Bell alarm
- Bell alarm with remote reset command
- Electrical signaling of circuit breaker open/closed (Aux contacts MOC)
- Electrical signaling of circuit breaker racked-in/test isolated/racked-out (position contacts -TOC)
- Contact signaling closing springs charged
- Contact signaling undervoltage release de-energized
 (C. Aux YU)

PR123 trip units. The re-engineered hardware architecture allows flexible and precise configuration. With the new Emax modular trip units one can simply add the appropriate module to satisfy your requirement: a great advantage, both in terms of flexibility and customization.

Weight (Ibs)	3P Fixed	110
	3P Drawout	172

Safety	
٠	Lock in open position: key
•	Lock in open position: padlocks
•	Circuit breaker lock in racked-in/test isolated/racked-out position
٠	Accessories for lock in test isolated/racked-out position
•	Padlock device for safety shutter
•	Mechanical lock for compartment door
٠	Anti-racking-out device when the springs are charged (FAIL SAFE)
•	Protection for opening and closing pushbuttons
•	Mechanical interlock
