

# PACMotion™ Servo Motor Upgrade

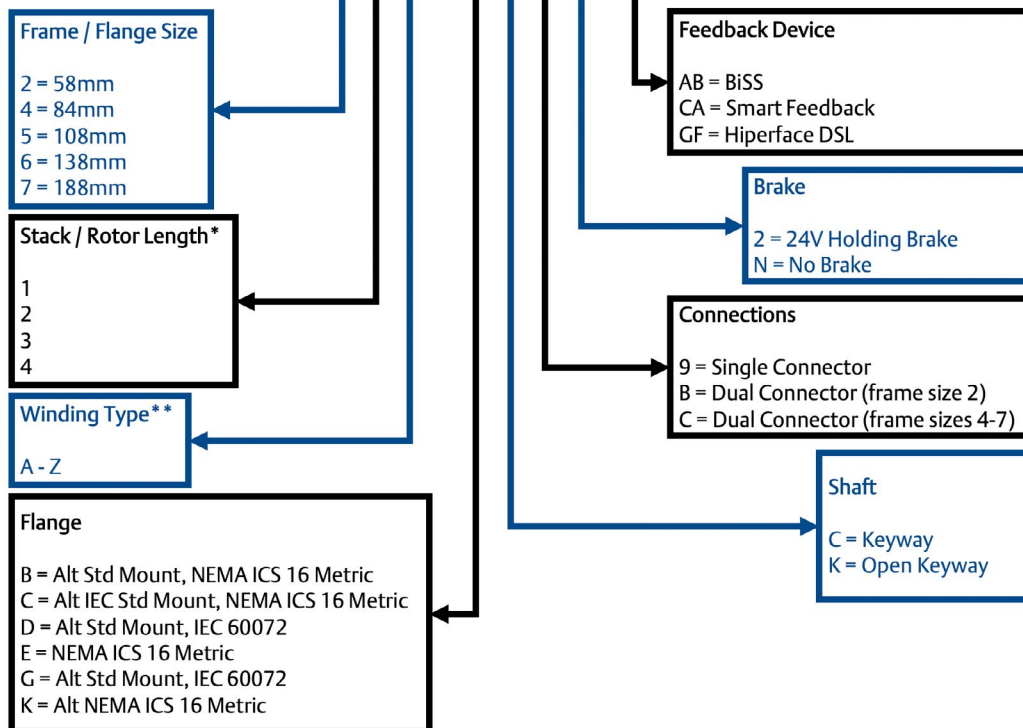

## Functional Replacements for FANUC Servo Motors

To help users with previous generations of PACMotion solutions migrate to the PACMotion High Speed Servo Motion Control solution, we've ensured upgrading is simple and painless. Our PMM345 Motion Controller is designed with the same footprint as its PMM335 predecessor and the intuitive PACMotion Workbench software enables easy servo drive configuration. Additionally, the PACMotion Servo Sizing App allows you to easily select the perfect motor for every situation. With a comprehensive list of advanced servo motors users can quickly swap modules with minimal disruption.
