High definition video camera with excellent low-light performance

The MZ-HD30-5 is a high quality, high-definition color video camera. The camera provides 3x motor-driven optical zoom and delivers 1080p HD video up to 30 frames per second. The zoom functions can be controlled automatically and precisely from anywhere using the features of IVC camera management software.

This wide dynamic range camera includes integrated IR illuminators

to increase performance in low light conditions up to 25 meters.

The camera includes I/O for connection of auxiliary security or process-monitoring devices to initiate automatic views and video recordings of intrusions or process malfunctions. The camera is housed in a weatherproof dome that is rated IP-66.
