

Training for the Animatics SmartMotor™ product is conducted by the Animatics Institute, which offers a variety of training programs and seminars for Automation Solution Providers (ASPs), Consultants, Distributors, Engineers, Machine Builders, OEMs, System Integrators, and Users of Animatics rotary and linear products and systems. The training programs include:

- Application solutions that lower costs, improve reliability and speed up your time to market. Covers a variety of machine types and systems as well as a variety of markets. Opportunities to do machine design in real time at our headquarters
- Basic principles of machine and system economics
- Economics of machine and system design including comparative analysis, time-to-market values and more : the key to winning in the marketplace.
- Essential information about the SmartMotor and how it works including field bus options, introduction to programming, avoiding common problems, and trouble-shooting.
- Master/Slave solutions: when to use them and when to avoid them
- PLC-free systems
- Sales and marketing strategies for Smart products and systems
- SmartTechnologies™ and how to get the most out of them

Certificates are awarded upon satisfactory completion of courses. Programs cover more than one topic and typically last five days with opportunities for 2-week sessions.
