AE Series Rackmount PCs - 1U, 2U and 4U Screenless Rackmounts

Produced in Nematron China's ISO 9001 manufacturing facility, Nematron's new range of AE Series RackMount PCs have been designed to be attractively priced in today's highly competitive marketplace.

Constructed of 18 gauge, clear zinc plated, cold rolled steel, its efficient design permits effortless upgrade of on-board components. Front panel controls and indicators are secure behind the locking front panel door. All AE RackMount chassis's are designed for a standard 19-inch equipment rack or bench-top use.

1U Rackmount PC

Front   **Rear**
