

NT24k[®] Modular Industrial Switch

N-Tron[®] Networking Series

Managed Gigabit Industrial Ethernet Switch

The N-Tron[®] series NT24k[®] is a modular managed switch designed for factory automation, utilities, SCADA, security surveillance and other industrial applications.

The Red Lion N-Tron series NT24k managed industrial Ethernet switch features connectivity for up to 24 Gigabit ports and offers a wide range of connectivity options—including 100Base, Gigabit, fiber optic and copper options—in a rugged 1U 19" rackmount enclosure. Designed to handle the most demanding environments, the NT24k delivers wire-speed throughput and includes dual power inputs, expanded shock and vibration tolerances, extreme operating temperature range and three slots to accommodate mix-and-match port modules. N-Ring[™] technology restores network communication within ~30ms of fault detection. Robust remote monitoring capabilities make management easy.
