

MOTION® VEHICLE KEYBOARD POUCH

ACCESSORY SPECIFICATIONS

The Motion Vehicle Keyboard Pouch is designed to safely stow an external keyboard in your vehicle. Designed to fit a wide range of keyboards, the pouch can be permanently or temporarily installed to any suitable surface by means of screws or rivets (not supplied) or by using the supplied straps.

Manufactured from ballistic nylon, the pouch protects the keyboard and prevents unintentional movement inside the vehicle cabin.

KEY FEATURES

- 8 x Mounting tabs
- 2 x 200cm Straps ideal for attaching to a seat
- Suits a wide variety of small form factor keyboards
- Secure velcro flap
- Suits USB or wireless keyboards
