Sales, Support, and Training

SCADA/Enterprise Manufacturing Intelligence/Software

Wonderware - Real-time operations management industrial software for HMI, SCADA, and MES

Topview- easy-to-configure, alarm management, alarm notification, and remote monitoring tool

Kepware Servers - Software to connect device and applications, OPC bridging, and OPC redundancy

Dream Report - Enables easy, quick, and inexpensive creation of custom reports

Longwatch - PoE and Industrial cameras, video management software, and console recorder

MDT AutoSave - Software to protect, save, restore, and track changes in programmable devices

Win-911 - Alarm notification software that can connect with any HMI/SCADA package

Wonderware ®
by AVEVA

Human Machine Interface

Wonderware - HMI solutions for easy integration with larger SCADA systems

Parker - Fast, distributed, and full-featured HMI solutions with hardware made in the USA

GE - Control systems, operator interfaces, panel PCs and monitors, and industrial computers

Maple - Premier provider of operation interfaces, graphic HMIs, and Touchscreen Panel PCs

Red Lion - Operator Panels, including touchscreen, with built-in Ethernet and 300 industrial drivers

Communication & Networking

Moxa - Remote automation, managed/unmanaged switches, computing, serial connectivity, and IP surveillance

Turck - Fieldbus cabling and I/O nodes, switches, and Ethernet in assorted packages

Secomea - Secure, remote management for programming, control, and data logging

4RF - High capacity, narrow band point-to-multipoint radios with SCADA and telemetry applications

ABB Wireless - Tropos mesh routers to build high capacity wireless networks for covering broad areas

Red Lion - provides N-Tron® and Sixnet® series Ethernet switches, cellular M2M devices and communication converters

Advantech - Full line of Ethernet products and protocol converters for many applications

Industrial Computing

ThinManager - Thin client management for configuration and deployment of desktops, applications, and virtual resources

Zebra Technologies- Handheld, vehicle-mounted, wearable computers, scanners, RFID, and printers

Stratus - Fault tolerant computer servers with built-in hardware redundancy and software

We partner with several manufacturers to deliver your hardware needs, including panel PCs, factory displays, thin clients, tablets, rackmount PC/servers, box PCs, and tablets

Moxa   Advantech   Arista   Logic Supply   Nematron

Promoting technical solutions to ensure your success with automation

Sales, Support, and Training

Kansas City / Wichita / St. Louis / Springfield / Omaha

Drives & Motors

ABB Drives - Low voltage and medium voltage AC/DC drives with variable speeds to maximize efficiency

Baldor - Electric AC and DC motors, mechanical power transmission products, and generator sets

TCI - Active and passive harmonic filters, drive output filters, and line reactors

Machine Control/Safety & Data Acquisition

Turck - Sensors, fieldbus, remote and discrete I/O, interface technology and RFID systems

Moxa - Remote and discrete I/O, RTUs, and surveillance

GE - Innovative PLCs, PACs, I/O and safety products for optimized performance

ABB Jokab Safety - Safety solutions from switches, emergency stops, sensors, to fencing

CTI - Advanced control, communications and I/O products based on the legacy TI505 platform

Horner - All-in-one controllers, expansion and remote I/O, control software, and LED lighting

Pilz- Sensor technology, control technology, actuator technology, and machine safety

Red Lion- Industrial controllers and RTUs, HMI operator panels, I/O modules, and more.

RRAMAC - Remote monitoring solutions to keep assets online

Horner Lighting - LED remote phosphor lighting and control solutions

Precision Motion Control, Mechanical Components & Robots

Yaskawa - Brushless AC servos, linear motors, direct drive motors, and multi-axis controllers, Motoman robots

Parker - Complete motion solutions from mechanics to the controller and HMI

Precise Automation - collaborative robots, motion control and vision software

Macron Dynamics - Multi-axis automation products including H-Bots, T-Bots, Gantries, and Cartesian Robots

Panel Equipment

ABB Control- Electrical control and protection products

PULS Power Supply - DIN-rail power supplies including single and three phase AC/DC

Pfannenberg - Cooling enclosures with filter fans, air conditioners, heaters and thermostats

Hammond Transformers - Energy efficient low and medium voltage transformers

Schaefer Enclosures - Electrical enclosures and customized carbon and stainless steel panels

Attabox - Polycarbonate enclosures with certified protection for the most extreme environments

Promoting technical solutions to ensure your success with automation
