

## Business Applications Developer

Olathe, KS

Logic, Inc. is currently seeking applicants for the position of business applications developer for our Olathe, KS office. We are looking for a motivated self-starter to join our team to continue our in-house development and customization of Adobe Commerce (Magento) and NetSuite ERP as well as the integration between them.

### Responsibilities:

Logic Inc is seeking an individual who will join our team working on the customization, integration, and enhancements of our eCommerce website built on Adobe Commerce (Magento) as well as working on our NetSuite ERP system. The position requires application development skills, organizational skills, and good communication ability to coordinate between various functional groups within the company.

- Work with teams at Logic Inc to develop a scope, outcome deliverable list, timeline, functional testing plan and strategy to tackle various enhancements to our Logic eCommerce website and backend integration with our NetSuite ERP
- Responsible for projects that include configuration, customization, and testing within the NetSuite ERP system.
- Responsible for projects that include configuration, customization, and testing of Adobe Commerce (Magento).
- Work may be coordinating with other NetSuite and Adobe Commerce Developers as needed for custom scripts, 3rd party integrations, and integration management with other systems.
- Support workflow automation projects to increase efficiency and accuracy of NetSuite
- Create configurations and customizations of NetSuite to meet the needs of Logic Inc and key stakeholder requirements.
- Propose improvements to the NetSuite ERP system and the eCommerce website that interfaces with it.
- Learn to be responsible for development, architecture, and engineering of data and workflows within NetSuite and Adobe Commerce to meet key stakeholder requirements.
- Proactively improve, make recommendations, and create efficiencies of work and data flows within the NetSuite ERP system to achieve business continuity, efficiencies, and meet key stakeholder requirements.

### Requirements

- Bachelor's degree in computer science or software engineering
- We are willing to consider newly graduated candidates
- Work experience and internship experience very helpful
- Excellent interpersonal, verbal, and written communication skills
- Analytical thinking and problem-solving capability
- Great attention to detail and time-management skills
- Able to work both independently and as part of a team

**Technical Proficiencies:**

- Experience developing with JavaScript, node.js and PHP
- Experience in SQL Server database and programming.
- ASP .NET Core development and C# language.
- Experience building and integrating REST Technologies.

**What We Offer:**

- Competitive salary & bonus package
- Full benefits package including medical and excellent retirement benefits
- Paid holidays and vacation, personal, sick time.
- Great working environment with a team approach management

**Who We Are:**

Logic Inc. offers products for machine and process control, software for industrial applications, and precision motion control including industrial and collaborative robots.
