

Blank EULA during installation

During installation of AVEVA products, you may encounter a blank EULA which prevents acceptance and the ability to move to the next step in the wizard. This is due to a Microsoft update, the details of which are in the following tech alert.

<https://softwaresupportsp.aveva.com/#/knowledgebase/details/ta000034767>

To fix, exit the installer and execute the following from an administrative command prompt.

```
reg add "HKLM\SOFTWARE\Microsoft\NETFramework\Windows Presentation  
Foundation\XPSAllowedTypes" /v "DisableDec2022Patch" /t REG_SZ /d "*" /reg:64
```

Then run the installer again.
